Education
KIIT(2024-28) 2nd year

Technical Skills

Java, Python, C++, Dart • Data Structures & Algorithms • Object-Oriented Programming • Software Design & Development • Mobile App Development • SQL & Relational Databases • Git & Version Control • Debugging & Testing • Agile & Scrum • CI/CD Basics • REST APIs • Problem Solving • Technical Communication • Cloud Fundamentals • Big Data & Data Warehousing (Basics) • Application Resiliency Concepts

Profile

Second-year B.Tech Computer Science student at KIIT University with strong foundations in Data Structures, OOP, mobile application development. Passionate - building scalable software and solving real-world problems. Seeking a Summer Internship at JPMorgan Chase to contribute to high-impact engineering teams while growing in fintech and large-scale systems.

Technical Projects

Flutter & App Development

•Flutter (Dart)
•Stateful & Stateless Widgets
•Widget lifecycle & state management basics
•UI layouts, responsive design
•Navigation & routing
•Debugging UI & logic issues

Flutter Quiz App (Mobile Application)

•Built a simple interactive Flutter app using Stateful widgets
•Implemented dynamic UI updates using setState()
•Focused on clean layout and readable code structure
• Built using Flutter (Dart) with modular, maintainable architecture
• Applied OOP principles and clean code practices
• Implemented state management and dynamic UI rendering
• Integrated navigation, routing, and structured app flows
• Debugged UI/logic issues and improved performance
• Version controlled with Git and followed Agile-style iteration
